PROFESSIONAL SUMMARY

Data Engineer with 4+ years of experience in cloud environments, specialized in designing, automating and optimizing ETL/ELT processes on Google Cloud Platform. Technical lead on regional data projects, able to translate business needs into scalable solutions. Looking for a role where I can keep growing in data architecture and add value from both a technical and a functional perspective.

TECHNICAL SKILLS

- **Google Cloud Platform:** BigQuery, Google Cloud Storage, Cloud Functions, Compute Engine, IAM, Cloud Scheduler, Looker Studio, Dataform
- **Languages:** Python, SQL, C#
- **Orchestration & Transformation:** Airflow, Dataform, Pentaho
- **Other:** .NET Framework, Git, Google Tag Manager, Google Sheets, Excel

PROFESSIONAL EXPERIENCE

Data Engineer | Grupo QuintoAndar

09/2022 – Present | Regional BI Team

- Technical lead of the web scraping project for the regional BI team, reporting to the Regional Director and occasionally to the General Manager: vendor management, extraction strategy definition, end-to-end development of the ETL process and an automated QA system, data quality validations and monitoring alerts.
- Design, development and maintenance of ETL/ELT processes on GCP, with daily, weekly and monthly loads.
- Migrated the monthly customer-base closing process from Pentaho to Dataform, reducing processing time from 3 hours to 30 minutes.
- Pipeline orchestration with Airflow.
- Data modeling and transformation with Dataform.
- Delivered internal BigQuery and SQL training to Marketing, Operations, Finance and BI teams from other areas.

Data Engineer | PipolHub

03/2022 – 09/2022

- End-to-end ETL management: extraction, transformation and loading of data across multiple sources.
- Creation, optimization and maintenance of databases using BigQuery, Google Cloud Storage, Google Sheets and Excel.
- Database QA and testing, ensuring data integrity and consistency.

Jr. Web Analyst / Data Analyst | PipolHub

10/2020 – 03/2022

- Web tracking implementation with Google Tag Manager: measurement of behavior and conversion events (time on site, scrolling, sign-ups, clicks, outbound links, deposits, enhanced ecommerce).
- Took part in migrating a major retailer's tracking from TiendaNube to VTEX.
- YouTube SEO optimization and on-site SEO for Google Search.
- Managed the company's ETL process; designed and maintained data structures (dimensions, metrics, aggregations).
- Unified data sources in Google Sheets using advanced functions and data joins.

Sales Representative | Alcanzo

01/2019 – 01/2020

- Phone sales of telecommunications services.

Production Operator | Lear Corporation

01/2016 – 01/2019

- Assembly of wire harnesses for the automotive industry.

EDUCATION

Associate Degree in Programming (Tecnatura Superior en Programación)

UTN FRGP | 2019 – 2023

High School Diploma in Economics and Business Administration

Colegio Secundario San Marcos | 2010 – 2015
